SUMMARY

Detail-oriented and adaptable computer engineering graduate with experience in software development. Quick to learn new technologies and practices, eager to apply skills in a software development environment.

EDUCATION

Batangas State University – Alangilan Campus   **2020 – 2024**

Bachelor of Science in Computer Engineering   *Golden Country Homes, Alangilan, Batangas City*

OJT EXPERIENCE

IntegrityNet Solutions and Services   **February 2024 – May 2024**

Web Developer Intern   *M. Pastor Ave., Pallocan West, Batangas City*

- Accomplished all tasks assigned by the supervisor, ensuring timely completion while meeting expectations.

- Developed web applications and integrated technologies commonly used by the software development team of the company.

- Managed CRUD operations using uAdmin, a Golang web framework open-sourced by IntegrityNet, while integrating frontend (HTML, CSS, JavaScript) and backend (Golang) technologies.

PROJECTS

Website Portfolio   ⌘ *https://ivanmaranan.pages.dev*

- Developed a responsive website portfolio designed using Figma and translated into HTML, CSS, and JavaScript, showcasing professional skills and projects.

- Deployed the website using Cloudflare Pages to ensure fast, secure, and scalable hosting.

- Created a detailed documentation about the technologies used, design thought processes, and features at *https://ivanmaranan-portfolio.readthedocs.io/en/latest/*

CupMatch   ⌘ *https://cupmatch.pages.dev*

- Designed and developed a memory game where players guess the correct order of hidden items.

Restaurant Web Application

- Designed and developed a PHP-based restaurant web application using XAMPP for SQL database management.

- Wrote a comprehensive documentation available at *https://restaurant-php.readthedocs.io/en/latest/*

SKILLS

Programming Languages: Golang, PHP, JavaScript, HTML, and CSS

Technologies: Figma, Git, and XAMPP
