EDUCATION

Batangas State University - Alangilan Campus
Bachelor of Science in Computer Engineering

2020 – 2024

EXPERIENCE

Bandai Namco Philippines Inc.

January 2025 – Present

J.P. Rizal Ave., LIMA Technology Center, Lipa City, Batangas

Purchasing Staff (October 2025 – Present)

- Planned the material allocation for Capsule Vending Machines (CVM) and created purchase requisitions using Material Requirements Planning (MRP) system to ensure stock availability and continuous production.
- Created and issued Production Material Requisition Summary (PMRS) for Injection and Assembly parts to align material requirements across departments.
- Prepared material cost forecasts and finalized total expenses for CVM during lot closing.

Warehouse Staff (January 2025 – September 2025)

- Supervised container loading operations for CVM for local and international distribution.
- Planned and optimized truck dispatch schedules across CALABARZON to ensure efficient material pickup and transfer.

IntegrityNet Solutions and Services

February 2024 – May 2024

On-the-job Trainee

M. Pastor Ave., Pallocan West, Batangas City

- Developed web applications and debugged software issues during development.
- Managed CRUD operations using uAdmin, a Golang web framework open-sourced by IntegrityNet, while integrating frontend (HTML, CSS, JavaScript) and backend (Golang) technologies.

PROJECTS

Website Portfolio

<https://ivanmaranan.pages.dev>

- Developed a responsive website portfolio designed using Figma and deployed using Cloudflare Pages.
- Created a detailed documentation about the technologies used, design thought processes, and features at <https://ivanmaranan-portfolio.readthedocs.io/en/latest/>

CupMatch

<https://cupmatch.pages.dev>

- Designed and developed a memory game where players guess the correct order of hidden items.

Restaurant Web Application

<https://ivanmarananprojects.pages.dev/restaurant-php/>

- Designed and developed a PHP-based restaurant web application using XAMPP for SQL database management.
- Wrote a comprehensive documentation available at <https://restaurant-php.readthedocs.io/en/latest/>

SKILLS

Programming Languages: Golang, PHP, JavaScript, HTML, and CSS.

Tools: Figma, Git, XAMPP, AutoCad, Microsoft Office, and Google Workspace.
